OUR ORGANIZATION

Updates from Post Holdings

Nick Martin, Vice President - Sustainability, Post Holdings, Inc.

Happy Earth Day! This annual event is a great reminder to reflect on the importance of maintaining a steadfast commitment to sustainability as organizations, local communities and individuals. For me, this year is especially

meaningful as it marks my 30th year working in the sustainability field. I grew up in Southern Missouri, a very nature-oriented part of the U.S., frequently hiking, fishing and lake fun. During college, I worked for the Missouri Department of Conservation and have since held several domestic and globally-focused roles for government, non-government, industry

associations and now my current corporate position at Post. Today, I encourage you to reflect on your own relationship with the environment and commit to doing what you can to recycle more consistently, explore low impact gardening and lawn care, volunteer locally and simply enjoy the great outdoors.

OUR BUSINESSES

Post Consumer Brands Annual Ingredients for Good Initiative

During April, National Volunteer Month, Post Consumer Brands (PCB) team members came together for the 5th annual Ingredients for Good initiative. PCB sites hosted volunteer events to combat food insecurity throughout the month. A summary will be published soon and will no doubt build from the impact achieved [last year](#).

Michael Foods and Post Consumer Brands Pursue Third-Party Data Assurance

Michael Foods and PCB are working to achieve third-party assurance of scope 1 and 2 greenhouse gas (GHG) emissions

data by fall 2026. To achieve this milestone, Post has engaged with [Sensiba](#), a Certified B Corporation™ that provides accounting, tax advisory and assurance services.

To prepare for assurance, Michael Foods has also partnered with [Jacobs](#) to ensure GHG accounting is complete and accurately considers all relevant sources of emissions. Specifically, this project is evaluating and refining, as needed, emissions calculations related to onsite wastewater treatment processes, manure management from egg laying operations and owned refrigerated trailers used for transport and onsite storage.

Bob Evans Farms Hosted American Red Cross Blood Drive

Bob Evans Farms was proud to host an American Red Cross blood drive at their corporate office in March, which was open to employees and the public.

Blood donations are always a critical need and you can schedule your own [here](#).

Weetabix Participates in Future of Food Summit

Peter Chandley, Head of Quality and Food Safety at Weetabix, spoke at [The Economist Impact's Future of Food Summit](#) in London.

Peter joined an expert panel, "[Delivering Net-Zero in the Food Sector](#)," discussing how food producers and manufacturers are evolving practices to deliver more food with fewer resources, and what meaningful progress towards climate goals really looks like from sourcing lower emissions wheat to collaboration and shared learning across the food system.

OUR PARTNERS AND STAKEHOLDERS

National Pork Board We Care® Supply Chain Experience

Post participated in the We Care® Supply Chain Experience hosted by [Pork Checkoff](#) and the [National Pork Producers Council](#). The event brought together key partners across the supply chain to explore what is next for pork sustainability, and how animals, people and the planet will be cared for and thus, strengthening the supply chain now and for future generations.

The Future of Food and Beverage Forum USA

The sustainability leaders from PCB, Michael Foods, Bob Evans Farms and Post will all participate in [The Future of Food and Beverage Forum USA](#) hosted by the Innovation Forum. The forum brings together leading brands, farmers, retailers, traders, agri-businesses, investors, NGOs and policy makers to identify the main areas of opportunity and innovation within the food and beverage industry.

The Future of Food and Beverage Forum USA

Nick Martin will be featured in a panel session, “Unlocking the Commercial Opportunity in Innovation: How to Align R&D, Agriculture and Nutrition.”

St. Louis CITY SC Partnership

Post is proud to continue support of [St. Louis CITY SC](#), a Major League Soccer team with an ownership group that is 100% locally-based with deep roots in business, philanthropy and soccer. Led by Carolyn Kindle, St. Louis CITY SC is the first majority female-owned club in MLS history and one of the few in professional sports globally.

Celebrating Earth Day

Earth Day is celebrated globally every year on April 22. Did you know the following?

- 1) This year marks the 56th anniversary of the event, which started in 1970 and is often cited as the anniversary of the modern environmental movement.
- 2) The theme for Earth Day 2026 is “Our Power, Our Planet,” inviting everyone around the globe to unite around sustaining daily actions of communities, educators, workers and families protecting where they live and work.
- 3) EARTHDAY.ORG is a 501(c)3 nonprofit organization with a mission to diversify, educate and activate the environmental movement worldwide. For more information, visit: www.earthday.org.
- 4) The Earth Day organizers claim to be mobilizing 1 billion individuals annually and are working with more than 150,000 partners in over 192 countries. This is incredible growth from the first Earth Day in 1970, estimated to have mobilized 20 million Americans.
- 5) Earth Day Live, a 72-hour digital livestream held in 2020 to commemorate the 50th anniversary of Earth Day, is considered the largest online mass mobilization in history.

Looking for last-minute ideas to further celebrate Earth Day?

- Check out this up-to-date [map](#) of Earth Day events and find one near you!
- Use the [Earth Hub](#) to get inspired!
- Plant a [pollinator garden](#) in your backyard!
